STAINLESS STEEL GANTRIES AND HALOGEN HEATED BOXES

The RE, RD and XWH are the perfect addition to any heated cupboard/counter set up with options available for any size configuration you can think of.

Built with high grade AISI 304 stainless steel the gantries can be single or double stacked along with additions of heated boxes that provide both heat and light to the unit below. Items can be ordered separately or fitted before dispatch by our service engineers for an additional cost on application.
